Invitation letter

Dear Colleagues,

We are pleased to invite you to the 14th International Workshop on Neonatology to be held in Cagliari, Italy. This follows the success of the previous editions which saw the overall presence of more than 9000 participants. Workshop 14 is an important milestone and is accompanied by recognition by many national and international scientific societies. Some of the world's most renowned specialists from about 50 different nations have been present in Cagliari in these years. They have created a network of scientific and human relations that have changed, improved and enriched us all. The title of the workshop "The revolution of microbiomics. Nutrition, bacteria and probiotics in perinatal and pediatric health" underscores this itinerary: a view towards the future of perinatology and pediatrics through debate and the contribution of the Workshop, but above all the trajectory that assistance, research and teaching will follow in the coming years, in an integrated way with the medicine of the adult.

This year the proceedings of the Workshop will be published in the "Journal of Pediatric and Neonatal Individualized Medicine" (JPNIM), which is now also indexed in Scopus and Web of Science, official Journal of UENPS (Union European Neonatal and Perinatal Societies), UMEMPS (Union Middle-Eastern and Mediterranean Pediatric Societies) and Portuguese Society of Neonatology.

In past years the journals were "Medical and Surgical Pediatrics", "Journal of Chemotherapy", "Journal of Maternal Fetal Neonatal Medicine", "Clinica Chimica Acta" and JPNIM.

Over the years, the Workshop has made its impression on science and has promoted a lively discussion in an always serene and extremely constructive atmosphere. This year's meeting is organized in collaboration with the following Societies: EAPM (European Association of Perinatal Medicine), UENPS (Union of European Neonatal and Perinatal Societies), UMEMPS (Union of Middle-Eastern and Mediterranean Pediatric Societies), IAPS (Italian-Arabian Pediatric Society), SIBioC (Italian Society of Biochemistry and Clinical Molecular Biology), SI-DOHaD (Società Italiana Developmental Origins of Health and Disease), SIRD (Italian-Romanian Pediatric Society).

Besides the traditional appointment of the International Workshop on Neonatology, there will be 6 satellite meetings, including the 8th International Conference on Neonatal and Pediatric Laboratory Medicine, the 5th International Course on Perinatal Pathology, the first meeting on New Advances in Perinatology and Pediatrics, the first meeting on New Advances in Pediatric Psychopathology focused on "Echoes from ACTION and CAPICE European projects".

The meeting is dedicated to neonatologists, pediatricians, obstetricians, perinatologists, pathologists, laboratory researchers, pediatric cardiologists, nurses, midwives and all those who work with the newborns.

Great attention will be devoted to young specialists: in the last few years the events have been extended through presentation of numerous selected posters for each meeting and numerous prizes of 500 euros have been awarded for the best contributions (this year we have 4 prizes).

We look forward to welcoming you to this traditional appointment to discuss topics of the present and keep us up to date on the latest results, both in research and clinical neonatology and pediatrics.

The Presidents of the International Congresses

Vassilios Fanos (Cagliari, Italy), Egbert Herting (Lübeck, Germany), Moshe Hod (Tel Aviv, Israel), Manuel Sánchez Luna (Madrid, Spain), Sergio Bernardini (Rome, Italy), Michele Mussap (Cagliari, Italy), Antonio Ragusa (Massa Carrara), Ana Maria Ciubara (Galati, Romania), Gavino Faa (Cagliari, Italy), Giuseppe Floris (Leuven, Belgium)

Lettera di invito

Cari Colleghi,

abbiamo il piacere di invitarvi al 14th International Workshop on Neonatology che si terrà a Cagliari e fa seguito al successo delle precedenti edizioni, che hanno visto complessivamente la presenza di oltre 9000 partecipanti. Quello dei 14 anni è un traguardo importante, accompagnato nel corso degli anni dal riconoscimento di numerose Società Scientifiche Nazionali e Internazionali. Alcuni tra i migliori specialisti a livello mondiale, provenienti da una cinquantina di nazioni, sono stati presenti a Cagliari in questi anni e hanno creato una rete di rapporti scientifici e umani che ci ha cambiato, migliorato e arricchito.

Il significato del titolo del convegno, "La rivoluzione della microbiomica. Nutrizione batteri, e probiotici nella salute perinatale e pediatrica" rappresenta l'evoluzione naturale dei convegni precedenti fortemente protesi verso l'innovazione in Neonatologia e Pediatria, delineando il futuro dell'assistenza, della ricerca e della didattica, in modo integrato con la medicina dell'adulto.

Anche quest'anno gli Atti del Workshop saranno pubblicati sul "Journal of Pediatric and Neonatal Individualized Medicine" (JPNIM) indicizzato su SCOPUS e Web of Science, organo ufficiale della Società Europea UENPS (Union European Neonatal and Perinatal Societies), della Società Mediterranea e Mediorientale di Pediatria UMEMPS (Union Middle-Eastern and Mediterranean Pediatric Societies) e della Società Portoghese di Neonatologia.

Negli anni precedenti, le riviste sono state "Medical and Surgical Pediatrics", "Journal of Chemotherapy", "Journal of Maternal Fetal Neonatal Medicine", "Clinica Chimica Acta" e, infine, JPNIM.

Nel corso degli anni il convegno ha lasciato una significativa traccia scientifica che ha contribuito a una discussione vivace in un'atmosfera sempre serena ed estremamente costruttiva.

Per il meeting di quest'anno è prevista la collaborazione di: EAPM (European Association of Perinatal Medicine), UENPS (Union of European Neonatal and Perinatal Societies), UMEMPS (Union of Middle-Eastern and Mediterranean Pediatric Societies), IAPS (Italian-Arabian Pediatric Society), SIBioC (Società Italiana di Biochimica Clinica e Biologia Molecolare Clinica), SI-DOHaD (Società Italiana Developmental Origins of Health and Disease), SIRD (Società Italo Rumena di Pediatria).

Oltre al tradizionale Workshop Neonatale, quest'anno ci sono 6 satellite meetings che includono la 8th International Conference on Neonatal and Pediatric Laboratory Medicine, il 5th International Course on Perinatal Pathology, il primo meeting on New Advances in Perinatology, il primo meeting on New Advances in Pediatric Psychopathology, focalizzato sui 2 progetti Europei ACTION e CAPICE, la 13^a edizione del Meeting infermieristico-neonatalogico "Terra di Sardegna", il tradizionale Meeting della Società Italiana di Neonatologia – Sezione Sardegna.

Il convegno è dedicato a Neonatologi, Pediatri, Ginecologi, Perinatologi, Anatomo-patologi, Laboratoriisti, Cardiologi Pediatri, Infermieri, Ostetriche e a tutti coloro che si interessano di neonati.

Grande attenzione è dedicata ai giovani: negli ultimi anni la discussione è stata ampliata dalla presentazione di numerosi poster selezionati per ogni convegno e sono stati distribuiti numerosi premi da 500 euro ciascuno per i migliori contributi (quest'anno saranno assegnati 4 premi).

Vi aspettiamo a questo tradizionale appuntamento per discutere argomenti di attualità e per aggiornarci sulla ricerca e sulle novità cliniche in neonatologia e pediatria.
